New S-C Specialty Clinic: Pegasus Community Project for Adults with Special Needs

Supervising Pegasus – watching students learn to adapt to the atmosphere, treatment and type of patient – has been one of the most rewarding and fulfilling parts of my job at S-C. Being a part of Pegasus really helps you remember the little joys in life and how something that feels small to you can make a huge difference to someone else. Kindness, therapeutic touch, trust and human connection are some of the most valued and hardest acts to find in today's world – at Pegasus, we practice all of these acts and see the amazing benefits. *Lesley Frow '06*

My placement at Pegasus was one of the best experiences I had at S-C. It taught me to take a step back and really make a connection with my client by building trust and reading non-verbal cues. It was refreshing to get such honest feedback and to witness the progress we both made. *Kim Robinson '18*

Top: Matty Ekler Community Centre, one of the Pegasus locations. Above: Sudesh Phagoo (T4) with Alistair, who loves superheroes. Middle: Thank-you sign crafted by the Pegasus participants. Top right: Lisa Nosek '18 with Chris, who is wearing a Massage Makes Me Happy sticker. Bottom: Mahogany Brown (T4) had wonderful learning challenges with Angela.
